NEPA Process

The EIS for the proposed transfer of the HS/RTG assembly and test operations will be prepared in accordance with the National Environmental Policy Act of 1969, the Council on Environmental Quality's Regulations for Implementing the Procedural Provisions of NEPA (40 CFR Parts 1500-1508), and DOE's NEPA Regulations (10 CFR Part 1021).

A schedule for the draft EIS will be contingent on the scoping process. A 60-day comment period on the draft EIS is planned, and public hearings to receive comments will be held approximately six weeks after distribution of the draft EIS. Availability of the draft EIS, the

dates of the public comment period, and information about the public hearings will be announced in the **Federal Register** and in the local news media when the draft EIS is distributed.

The final EIS, which will consider the public comments received on the draft EIS, is scheduled to be published in the fall of 1999. No sooner than 30 days after the U.S. Environmental Protection Agency publishes a notice of availability of the final EIS in the **Federal Register**, DOE will issue its Record of Decision and publish it in the **Federal Register**.

Signed in Washington, D.C., this 24th day of September 1998.
